

Crystal McDonald, Director of Account Management, DC Sustainable Energy Utility

Crystal has over 20 years of experience in the energy and utilities sector where she supports strategies and programs that develop sustainable communities, install clean energy technologies, and reduce greenhouse gas emissions. Prior to joining the DCSEU, she served as a policy and programs advisor at the US Department of Energy, Office of Energy Efficiency and Renewable Energy. Crystal earned a Masters in Energy and Environmental Management from The George Washington University, a B.S. in Architectural Engineering from North Carolina A&T State University, and completed the Partnership for Public Service Excellence in Government Fellows Program. During her personal time she enjoys serving her community, cheering on local sports teams, and exploring regional arts and culture events.
