

Jay Wilson, RA, LEED AP BD+C, Program Manager, DC Green Bank

Jay Wilson is the Program Manager for the development and launch of the DC Green Bank, a quasi-public financial institution whose mission is to attract private investment and enable access to financing for energy efficiency and clean energy projects. In addition, Jay is a green building expert at the District's Department of Energy and Environment, where is responsible for advancing sustainable development and green building policy and planning. He advises private developers, the Zoning Commission and public agencies to increase the sustainability and resilience of large scale urban development. Jay is a registered architect and works on green building planning and zoning efforts with the Office of Planning, and also served on the city's Construction Code Coordinating Board. Prior to joining DOEE, Jay was Director of Sustainable Design and Senior Project Manager at Wiencek + Associates Architects + Planners in DC where he focused on the preservation and improvement of affordable housing communities. Jay served on the Board of Directors of the USGBC National Capital Region Chapter from 2011 through 2015. For his numerous efforts and accomplishments, Jay was recognized as the AIA|DC Emerging Architect of the Year in 2009.
